You can see a Cumulative List of all the Fabrics that have been discontinued over *the past 10 years*, possible alternatives among our other fabrics, and see which ones are still available in Liners by visiting our website at: raphaelstoday.com and go to the DISCONTINUED page. We try to update this list often and also include fabrics we believe will be out of stock for more than 30 days.

LDF PROFILES

Other New Products You May Have Missed

The past couple of years have seen the nature of our business transformed dramatically from being a company that sells Fabric yardage and Liner Stock to one that incorporates these components into a wide range of customized products. We've combined our fabric-covering skills and uncommon production capabilities to create Extraordinary Bulletin Boards and one-of-a-kind layouts for presenting Photos, to produce our own special interpretations of the Float Frame, and to craft all sorts of Customized Displays. Although the space between the Art and the Frame is still our major focus here at Raphael's, these days we offer a more comprehensive assortment of ways to help you fill this space.

Custom Hardwood Float Frames – we can create Float Frames in five different Hardwood species up to 3-1/2" tall. This very custom product can be produced either as a Cut and Joined Frame or in Length in bundles of 20 ft or more. Basswood, Beech, Canarywood, Maple and Peruvian Walnut are the species available, and most are offered both Raw and "Finished". An added bonus is our package of unique design enhancements we also make available to go with our Float Frames. If you haven't seen the way one of our "Float-Wrapped Liners" can enhance this look, you might want to go to our website: raphaelstoday.com and take a look at the What's New page.

Custom Display Components – if you are looking for pedestals, display cases, revolving display towers or even new options for presenting your corner samples we can provide truly one-of-a-kind Custom Display Product you need at a very reasonable cost.

Custom Bulletin Boards and Photo Presentations – we are creating bulletin boards in virtually any shape or size (up to 48" X 96") with cork or metal surfaces, and we can give your board a more distinctive look by covering it with one of our fabrics. We also offer Bulletin Boards with Photo Windows that make a great gift for coaches and teachers. Need a custom Family Tree layout with room (and photo-windows) to include show off all your relatives? We offer dozens of pre-formatted layouts or can create one just for you with custom openings and windows of all sizes. Our new Panel Liners allow us to do so much more than what could be done with a Mat, and in much larger sizes.

To see pictures and videos of the products mentioned on this page please visit our website at: raphaelstoday.com If you are looking for a partner that can help you deliver the unique products your customers treasure, no company offers such a wide range of custom enhancements. Take advantage of Special Offers on samples and new products by visiting the Web Specials page on our website. We add new specials in the first week of every month.
