

Between the **Raphael's** *and the frame ...you're in Raphael's country.*

Introducing the "FabFotoFrame"

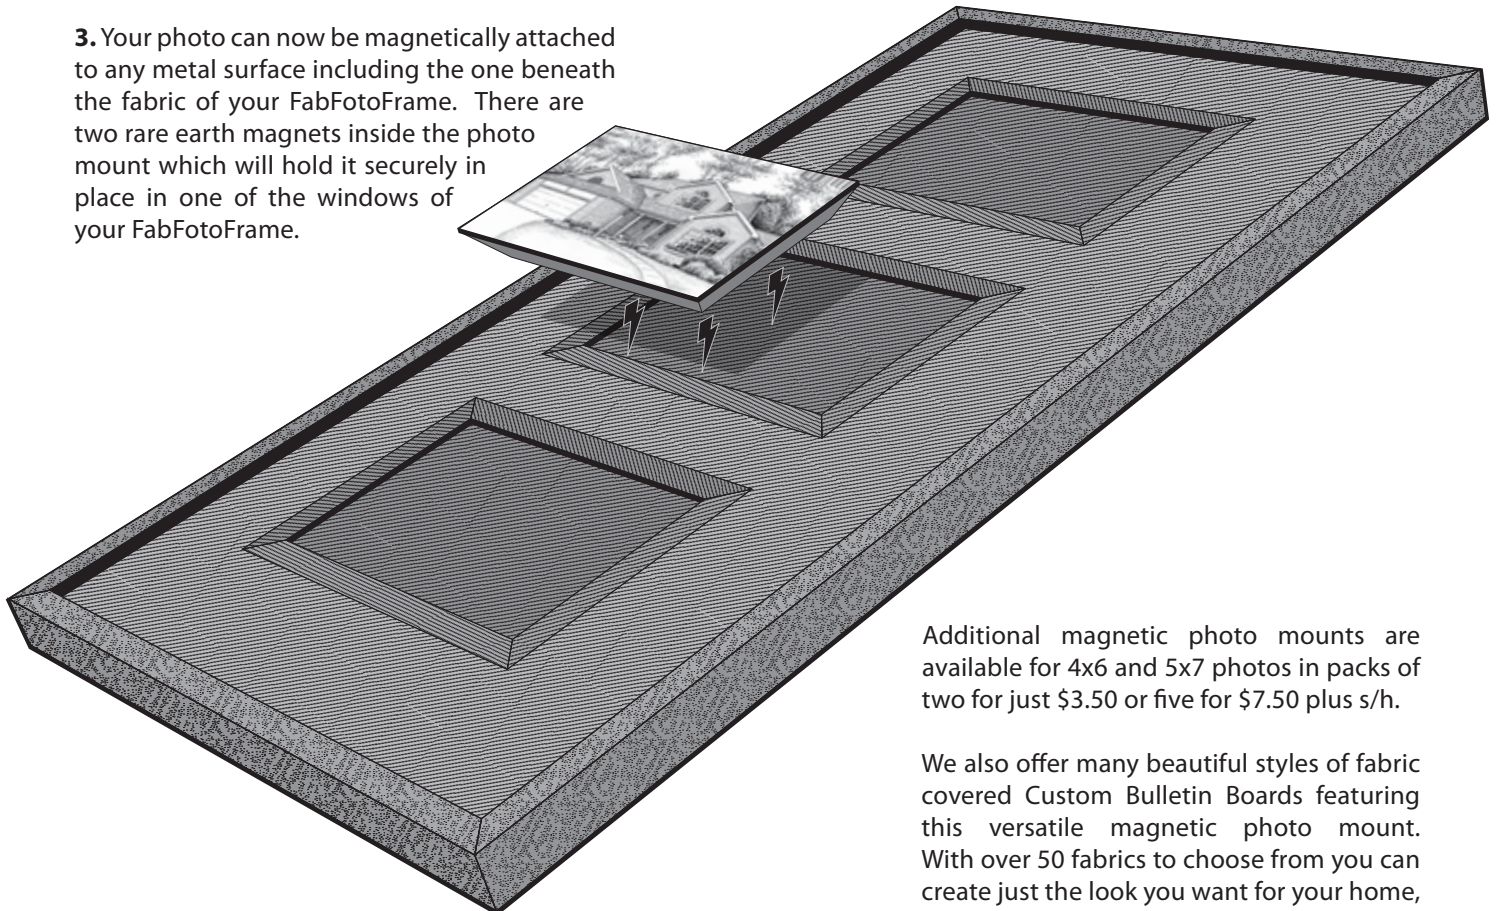

1. Prepare to attach your photo by removing the paper covering the adhesive on the upper surface of the magnetic photo mount.

2. Align your photo and adhere it to this surface - trim any excess if desired.

3. Your photo can now be magnetically attached to any metal surface including the one beneath the fabric of your FabFotoFrame. There are two rare earth magnets inside the photo mount which will hold it securely in place in one of the windows of your FabFotoFrame.

Additional magnetic photo mounts are available for 4x6 and 5x7 photos in packs of two for just \$3.50 or five for \$7.50 plus s/h.

We also offer many beautiful styles of fabric covered Custom Bulletin Boards featuring this versatile magnetic photo mount. With over 50 fabrics to choose from you can create just the look you want for your home, office or organization.
